

## ABC Food Law Webinars

**We are delighted to announce the launch of ABC Food Law Online PLUS.**

We have been running an online training service for over 10 years now and this has been a popular way to achieve compliance with the Food Law Code of Practice CPD requirements. However, whilst convenient and cost effective, online training has its downsides, in particular the inability to ask questions that might arise during study. As such we have now added a range of **live, interactive webinars** to our online training platform.

### What are webinars?

These are short presentations, typically one hour in duration each, which are broadcast live over the internet. The presenter is joined by attendees in a virtual training room and the webinar is delivered using powerpoint slides. Attendees are given the opportunity to ask questions during the session and provided with a CPD certificate.

### How can you access the ABC Food Law webinars?

There are two ways that attendees can access our webinars:

- ) **Single attendance** – you can book a place, just like any regular training course, on our website ([www.abcfoodlaw.co.uk](http://www.abcfoodlaw.co.uk)) . The typical cost is £30 + vat per person per webinar.
- ) **Subscription to ABC Food Law Online PLUS** – An annual subscription costs just £195 + vat per person and provides access to all of our webinars as well as the existing online training courses. Subscribers can also view the webinars “on demand” at a time that is most convenient for them
